EASY WAYS TO SAVE

Manage the settings on your thermostat

Set your thermostat at or below 68 degrees when you are home. For every degree you turn down the temperature, you could save 1% to 3% on heating costs.

We pick up your extra fridge, you pick up 30 bucks.

Your extra fridge is costing you more than you think, adding up to \$200 to your energy bills each year. Save money and clear clutter with Vectren's Conservation Connection Appliance Recycling Program. Vectren will haul away your extra fridge, freezer or window A/C unit and recycle it — all at no cost to you. We'll even pay you \$30 for each qualifying appliance.
