

Live Smart with Vectren's Conservation Connection!

RECEIVE A FREE ENERGY EFFICIENCY KIT

Visit the **Online Energy Audit** at Vectren.com; complete the **Find Ways to Save** questions and you will receive a **FREE** energy efficiency kit! SEE REVERSE SIDE FOR DETAILS.

Take the Home Energy Audit and tell us about your appliances, weatherization, etc. by answering some brief questions within the *Find Ways to Save* section. In return you will be given specific examples of ways to save energy and money tailored to your home. You'll also receive a **free energy efficiency kit** that contains measures that once installed will help decrease your natural gas usage.

Follow these easy steps to conduct the Home Energy Audit:

1. Visit Vectren.com and access your online account using your Vectren.com login information.

** If you do not have a registered account you will need to create one. Registration is easy; simply provide your e-mail address and Vectren Energy Delivery of Ohio account number and create a password.*

2. Once on your *Manage My Account* page, choose *Home Energy Audit*. Click on the *Find Ways to Save* tab and tell us more by selecting one of the topics such as Weatherization, Heating, etc.

** A Home Profile must be completed to access Find Ways to Save.*

There is no need to e-mail or call to confirm your entry; all transactions are monitored and automatically recorded at the time of online audit completion. Your FREE energy efficiency kit will be mailed within 4-6 weeks of audit completion.

There is a limit of one energy efficiency kit per household since the promotion start date in April 2009. Offer is applicable only to accounts with an active Vectren Energy Delivery of Ohio natural gas service and is limited to the first 2,000 customers.
